

Focused on frontend excellence, UI systems, and product quality. Experienced building platforms, ecosystems within social networks, and marketing infrastructure at scale.

EXPERIENCE

Superside & Superads

Lead Engineer

May 2022 – Present

- Built and maintained a shared UI component library powering marketing landing pages and leadgen website using Astro, Next.JS, and Sanity
- Improved DX and UX consistency across a large-scale web platform; integrated AI-assisted development workflows using Cursor
- In 2024 I switched to Superads — building both frontend and backend for AI platform that analyzes ad campaigns, spots trends and makes smarter creative decisions

extensi.one

Full-Stack Engineer

May 2021 – May 2022

- Built a new affiliate marketing platform from scratch for Twitch streamers
- Developed 15 Twitch extensions (streamer tools + mini-games), becoming the world's largest Twitch extensions publisher

Winstrike

Full-Stack Engineer

Aug 2020 – May 2021

- Built landing pages, Twitch extensions, and branded online games for Nivea, HyperX, Palmolive, and BetBoom using Next.js, Node.js, Firebase, and PHP

Freelance

Full-Stack Engineer & UI/UX Designer

Dec 2017 – Jun 2020

- Created a WebGL-based 3D interior editor and virtual 3D tour experiences for HOFF and Moscow residential complexes
- Coordinated Russia's first virtual 3D startup exhibition for Skolkovo
- Designed and developed VK Mini App for WWF; built educational simulators for Plekhanov University; created branding for RusKlimatFond & Amur Tiger NGOs

EDUCATION

Plekhanov Russian University of Economics

Master's & Bachelor's, Business Management

2017–2023

- 5 patents for online simulator systems in education; 14 indexed scientific papers; Plekhanov Pride Science Award Winner

SKILLS

TypeScript, Kotlin, Python, React, Next.js, Astro, Node.js, SQL, SCSS, Figma, Git, REST APIs, Firebase, WebGL, Sanity, AI-assisted development (Cursor, Copilot)
